

Please amend page 7 of the Specification as follows:

Figure [[1]] I represents a cross-sectional view of an empty mammalian stomach;

Figure [[2]] II is a sectional view of Gastric cells with Grehlin therein;

Figure [[3]] III is a cross sectional view of a stomach pulled;

Figure [[4]] IV is a view similar to figure 2 showing Grehlin being released from Gastric cells into the bloodstream;

Figure [[5]] V represents a cross-sectional view of a Grehlin binding compound entering a stomach;

Figure [[6]] VI is a view similar to figure [[4]] IV showing the Grehlin binding compound being absorbed by mucosa and in blood;

Figure [[7]] VII represents a cross-sectional view of a high fiber "cookie" which causes distention of the stomach and release of Grehlin from Gastric cells;

Figure [[8]] VIII is a view similar to figure [[6]] VI showing empty Gastric cells and Grehlin bound to a binding compound in the bloodstream;

Figure 9 depicts in a cross-sectional view a stomach before long term appetite suppressant use;
